DETAILED ACTION

Specification

1. The Examiner acknowledges the amendments made to the title of the invention. The new title is acceptable.

Response to Amendment

2. The Examiner acknowledges the amended claims filed on October 15, 2008. **Claims 1, 9 and 17** have been amended. **Claims 3 and 4** have been cancelled. **Claims 11-16, 20, and 21** have been withdrawn from consideration as they belong to non-elected Species.

Response to Arguments

3. Applicant's arguments, see page 9, filed October 15, 2008, with respect to rejection of **claim 4** (limitations now included in amended **claims 1, 9 and 17**) have been fully considered and are persuasive. The rejection of claim 1 (now including the limitations of claims 3 and 4) has been withdrawn.

Election/Restrictions

4. This application is in condition for allowance except for the presence of **claims 11-16, 20, and 21** directed to different Species non-elected without traverse. It is also noted that although **claims 11-16, 20, and 21** depend from claims that are now in condition for allowance, the independent claims as amended would not correlate with

Art Unit: 2622

said dependent claims as they are related to a different subject matter. Accordingly, **claims 11-16, 20, and 21 have been cancelled.**

Allowable Subject Matter

5. **Claims 1, 2, 5-10, and 17-19 (Renumbered as 1-11)** are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter:

7. **Regarding claim 1**, the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the elements of the present claim, that the top wall of the first casing has an extension plate over the opening, and the second casing has a groove accommodating the extension plate when the second casing is at the second position.

8. **Regarding claim 9 (Renumbered as 7)**, the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the elements of the present claim, that the top wall of the first casing has an extension plate over the opening, and the second casing has a groove accommodating the extension plate when the second casing is at the second position.

9. **Regarding claim 17 (Renumbered as 9)**, the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the elements of the present claim, that the top wall of the first casing has an extension plate over the opening, and the second casing has a groove accommodating the extension plate when the second casing is at the second position.
